PowerStor este o solutie de stocare enterprise bazata pe OPEN-E JOVIAN DSS. Are la baza sistem de fisiere ZFS. Functionalitati: thin provisioning, tiered caching, deduplicare, numar nelimitat de snapshot-uri. Storage model: storage pools. Protocoale: NFS, SMB/CIFS, ISCSI

Sasiu

Tip	Storage enterprise single-controller (optional dual controller)
Dimensiuni	rackmount 2U, sine incluse

Procesor

Model	Intel Dual Xeon
-------	-----------------

Chipset

Arhitectura memorie	128GB DDR4 REG ECC
---------------------	--------------------

Expansiune

Bay-uri HDD hot-swap	12
Observatii	36 TB (9x4TB hot-swap) capacitate bruta

Bay 1 (for OS)

Capacitate	120GB SSD
------------	-----------

Bay 2 (for OS)

Capacitate	120GB SSD
------------	-----------

SSD Cache

Capacitate	800GB
------------	-------

SSD Log

Capacitate	2x400GB
------------	---------

Controler de stocare externa

Numar de interfete	12GB miniSAS dual port
--------------------	------------------------

Interfata HBA

Numar	Optional IP-over-Infiniband
-------	-----------------------------

Retea

Tip	4*10Gbps Intel RJ45 + 2*10Gbps SFP+
-----	-------------------------------------

Alimentare

Numar de surse	2 (redundanta 1+1)
----------------	--------------------

Porturi

Alte tipuri	6*PCI-E x8
-------------	------------

Management

Tip management	Web
----------------	-----

Sistem de operare

SO	OPEN-E JOVIAN DSS
Subscriptie	1 an inclus, tip standard

Altele

Garantie	36 months
----------	-----------
